

## **HIST 3925/SOCI 2534 ACCEPTABLE REPLACEMENT LIST**

In the 2011/2012 academic year, SOCI2534 will not be offered. HIST3925 is offered in 2011 Fall term. Consequently, we have assembled a list of courses which we would consider as acceptable replacements. You can take any one of the following courses to fulfill the "Technology and Society" requirement of the Civil program:

SOCI2374 – Sociology of Science and Technology (not offered 2011-2012)  
ENVS2003 - Introduction to Environmental Studies  
IDS2001 - Intro to International Development Studies  
POLS1603 - Politics of Globalization  
SOCI1533 - Information Society (not offered 2011-2012)  
HIST3975 - History of the Life Sciences

St. Thomas courses:

STS1003 Science, Technology and Society I  
STS2103 Science, Technology and Society II

TME has now decided that two of those courses -  
IDS2001 and POLS1603 - will be acceptable as electives in their program.

Students who are considering taking the TME diploma should be advised of this when making their selection of a HIST3925 alternative.
